

# Public Sector Community

A new peer-led network for UK public sector organisations on the Oracle journey.

O5Live Public Sector Community brings together public sector leaders, practitioners, and delivery experience to share practical insight, reduce risk, strengthen decision-making, and improve outcomes. It is a trusted space for organisations using, implementing, or considering Oracle ERP.

## Why Join the Community

**Peer learning without sales pressure:** open, experience-led discussion in a trusted environment.

**Practical value:** proven approaches, implementation lessons, and live-service insight you can apply quickly.

**Stronger capability:** support for finance, HR, procurement, and digital teams.

**Responsible innovation:** explore emerging capabilities, including AI, through the lens of public accountability and trust.

## Our Purpose

We exist to help public sector organisations learn from one another, strengthen governance and capability, and make more confident decisions at every stage of the Oracle journey.

## What Makes It Different

Customer-led, peer-driven, inclusive, and focused on real public sector outcomes-not generic answers, but honest discussion and practical learning.

## Take Your Place in the Community

Membership gives your organisation a voice in a trusted public sector network focused on practical Oracle outcomes. Meet monthly online, join quarterly Special Interest Groups, and connect with peers facing the same challenges and opportunities.

## Join the Launch

The community launches at O5Live on **18 June 2026** in London, with Patrick Haston as Interim Chair. The first community meeting follows online on **13 July 2026, 2:00–4:00pm**. Be there at the start and help shape the agenda, priorities, and future direction of the group.

Join the launch on **18th June 2026** and become a part of the community shaping better public sector outcomes.

Join our first community meeting virtually on the **13th July 2026**.
